General Provisions

1. Allowance for teaching experience will be for five years, two of which may be military experience. This provision shall take effect beginning with the people hired for the 1960-61 school year.
2. A clear standard secondary credential or equivalent is required for placement in Class III. Possession of a clear standard secondary credential or equivalent will place an applicant in Class III without regard to the number of credits earned. Teachers who qualify for an internship credential may be placed in Class III, if they possess a bachelor's degree and 30 salary credits, however, they may not progress beyond Class III without possession of a clear standard secondary or equivalent credential. The equivalent credentials shall be the general secondary, the health and development credential, and the school librarianship credential.
