

## South Bay United Teachers Mission Statement

South Bay United Teachers (SBUT) creates a vision for the ideal Association by establishing norms and best practices on behalf of our members. Ever mindful of our members' district needs, SBUT provides information and training to our membership and coordinates how best to apply this knowledge to the work of the Association.

South Bay United Teachers protects and promotes the well-being of its members while strengthening local associations in their ability to develop educational and organizational leadership. We provide best practices for united action and advance the education, human dignity and civil rights of all children and youth through promoting the quality and funding of public schools.

South Bay United Teachers employs professional staff and maintains a centrally located meeting hall and office facility to conduct business as per the UniServ agreement between South Bay United Teachers and the California Teachers Association/National Education Association.
